LOGNOTE -- A/Chief, Operations Group, 6 March 1980

4. [] In discussion with [] on the possibility of establishing a monitoring post in Alexandria, we decided on the need for a survey there. [] would probably do the surveying. I advised the AD/FBIS of this, and we agreed it was contingent on getting political approvals. In the meantime FCS will prepare the paper and record work. We would plan on doing the survey in mid-April.
